ZORBITING - HILL ROLLING - WATER BALLS - CORPORATE - PARTIES

Harness Zorbiting

Zorbiting is a fun but safe way of achieving an adrenaline rush.

Imagine a large inflatable hamster ball that you climb into, get secured to a harness with a friend then thrown down a hill reaching impressive speeds.

Well that's Harness Zorbiting!

Water Zorbiting

If you fancy something different then try our Water Zorbiting.

Get inside the Zorbit Ball with around 30ltrs of water then without a harness roll down the hill sliding around, a little like being in a washing machine. This is extremely fun but you don't actually roll upside down.

Eclipse Zorbiting

Eclipse Zorbiting is Harness Zorbiting in the dark

The Zorbit Ball its self is black inside meaning your entire experience is in the dark

This is the ultimate in scary! Certainly not for the faint hearted.
